

ANTONY HUERTO

Full Stack Developer | React Native & Go

Peru | tonylex12@gmail.com | +51 935 377 552

Portfolio: tonyhuerto.dev | GitHub: [tonylex12](https://github.com/tonylex12) | LinkedIn: [antony-huerto](https://www.linkedin.com/in/antony-huerto)

DEVELOPMENT EXPERIENCE

Estima Pro — Full Stack Developer | Independent Project

Jan 2026 – Present | presupuestos.tonyhuerto.dev

- Built a construction budgeting platform for unit cost analysis (APU), resource catalogs and project budgets using Next.js and TypeScript.
- Modeled hierarchical construction data in PostgreSQL, including resources and construction task breakdowns.
- Containerized the application with Docker and deployed it on a self-hosted VPS managed through Coolify.
- Implemented PDF exports for detailed budgets and cost-analysis reports.

SELECTED PROJECTS

MotoPulse — Mobile Application | React Native, Expo, TypeScript, Go

- Developed a mobile application for motorcycle riders with GPS route tracking and vehicle maintenance management.
- Built the mobile client with React Native and Expo and its backend API with Go.

SalonBeauty — Appointment Platform | Next.js, PostgreSQL, Prisma

- Built appointment management with Admin, Staff and Client roles, email verification, and booking confirmation and cancellation.
- Implemented staff availability and appointment slot management.

TECHNICAL SKILLS

Mobile: React Native, Expo, TypeScript

Backend: Go, Node.js, NestJS, REST APIs

Web: React, Next.js, JavaScript, Tailwind CSS

Data: PostgreSQL, Prisma, MongoDB

Tools: Git, Docker, Linux, VPS deployment, Coolify

EDUCATION

Universidad Tecnológica del Perú (UTP)

Software Engineering — Undergraduate Student | Jan 2024 – Present

CERTIFICATIONS

Data Structures + Algorithms — ZTM | Oct 2025

JavaScript Algorithms and Data Structures — freeCodeCamp | Jun 2024
